KEYNOTE SPEAKER

Jeffrey Hajibandeh, DDS, MD

Dr. Hajibandeh is a full-scope Oral & Maxillofacial Surgeon whose clinical practice and research focuses on craniomaxillofacial trauma and reconstructive surgery. He received his DDS from Columbia University and his MD from Harvard Medical School. He then completed his residency in Oral & Maxillofacial Surgery at the Massachusetts General Hospital. Dr. Hajibandeh is a full-time faculty member within the Department of Oral & Maxillofacial Surgery and is an Associate Professor at Harvard Medical School. He serves as the Facial Trauma Representative within the MGH

Trauma Committee and serves as the Medical Director for Quality within the Division of Oral & Maxillofacial Surgery, Oral Medicine, and Dentistry.

Session Description

This lecture will review the implementation of virtual surgical planning in craniomaxillofacial trauma surgery, including the various modalities that can be implementing and techniques for use. After this presentation, attendees will gain an understanding of the scope and power of virtual surgical planning in facial trauma applications.
